

Our School Values Map

- Our school values help us to know how to live well together they are a bit like a map showing us where to go.
- Open out your paper, you will see six rectangles made by the folds. In each of these rectangles write one of our school values.
- Next to the word you could draw a symbol for that value, or a picture of someone living out that value if you wish.
- Fold your values map back up and write your school's name and your name on the front.
- Maps often have a photograph of a place on the front; if you want to, you could draw your school on the front of your map.
